

SOIL INJECTION

9 GALLON TANK

AccuFlo® Soil Injector ISD

Precision Meets Performance

Achieve accurate, repeatable dosing with the AccuFlo® Soil Injector ISD, engineered for superior performance in soil injection, drenching, and foliar spray applications. Designed to outperform other systems, AccuFlo delivers twice the pressure at half the weight, making it a lightweight yet powerful solution for green industry professionals.

With a dose-sizer barrel calibrated in 10mL increments, AccuFlo ensures precise fluid delivery—critical for minimizing product waste and avoiding over-application. Whether you're managing trees, shrubs, or ornamentals, this versatile, portable, and intuitive system gives you the control and reliability you need.

PRODUCT APPLICATIONS

- Soil Injection
- Soil Drench
- Foliar Spray
- Plant Growth Regulators
- Fertilizers
- Pesticides

AccuFlo
SOIL INJECTOR ISD

AccuFlo® ISD Kit
9 Gallon

KEY KIT CONTENTS*

Kit Number: 070-3200

1 AccuFlo® Soil Injector device
1 FlowZone™ All-Terrain Wheeler (9gal/18V battery)
1 Graduated cylinder
1 Tool kit

*Visit our website to view full list of kit contents

PRODUCT BENEFITS

ACCURATE DOSING
Increments range from 10 to 300 milliliters per injection

BATTERY-POWERED
FlowZone wheeler powered by an 18-volt battery lasts all day

ADJUSTABLE PRESSURE
Adaptable to a variety of soil conditions with operating injection pressure up to 100psi

EASY-TO-USE
Lightweight, ergonomic design allows for quick movement between injection sites

AUTOMATIC RECIRCULATION
Provides product agitation to prevent solution separation

EXPANDED USES
System can be used to apply fertilizers, pesticides and plant growth regulators
